CHI SIAMO

ABOUT US

Da oltre 40 anni la nostra azienda è specializzata nella selezione e distribuzione di prodotti per il personal care. Nel tempo abbiamo sviluppato la linea più ampia e articolata di accessori presente sul mercato, capace di coniugare design, performance e un eccellente rapporto qualità-prezzo, diventando un punto di riferimento in farmacia.

La nostra esperienza ci ha permesso di perfezionare il metodo espositivo per ottimizzare il sell-out, mentre la nostra specializzazione nel settore ci consente di mantenere costantemente aggiornata l'offerta, anticipando le tendenze di mercato. Crediamo che gli accessori per il personal care debbano avere la stessa rilevanza dei prodotti cosmetici: solo così è possibile garantire al cliente finale un servizio completo, rispondendo a tutte le sue esigenze di benessere.

Nel tempo abbiamo arricchito la nostra offerta con linee ad alto valore aggiunto: dermocosmetica biologica certificata, per una cura della pelle più naturale e consapevole; make-up Beautytime, con mascara, rossetti e matite occhi progettati per performance elevate; una selezione cosmetica dedicata, che include patch occhi e maschere viso in konjac, per un rituale di bellezza completo.

For over 40 years, our company has specialized in the selection and distribution of personal care products. Over time, we have developed the most extensive and comprehensive line of accessories on the market, combining design, performance, and an excellent quality-price ratio, becoming a key reference point in pharmacies.

Our experience has allowed us to improve the display methods to optimize sell-out, while our sector expertise enables us to keep the product range constantly updated, anticipating market trends. We believe that personal care accessories should have the same importance as cosmetic products: only in this way can we provide the end customer with a complete service, meeting all their wellness needs.

Over the years, we have enriched our offering with high-value lines: certified organic dermocosmetics, for a more natural and conscious skincare routine; Beautytime make-up, featuring mascaras, lipsticks, and eye pencils designed for high performance; and a dedicated cosmetic selection, including eye patches and konjac face masks, for a complete beauty ritual.

SPAZZOLE IN LEGNO

WOODEN BRUSHES

Spazzole professionali con tecnologia pneumatica: la camera d'aria in gomma riciclabile sostiene le setole, mentre i picchi in tecnopolimero plastico garantiscono durata e resistenza termica. Il loro design ricercato ed elegante le rende strumenti perfetti per l'uso professionale e per quello quotidiano.

Professional brushes with pneumatic technology: the air chamber made of recyclable rubber supports the bristles, while the plastic technopolymer pins ensure durability and heat resistance. Their refined and elegant design makes them perfect tools for both professional and everyday use.
